Scholl's Patent Ornamental Crown Chimney Caps.

SURE CURE FOR SMOKY CHIMNEYS.

I claim that with my CHIMNEY CAP it is not necessary to go to the expense of running a pipe to the top of your next door neighbor's house, whose roof happens to be higher than yours, to get a draught; as my Cap will remedy all defects; that it will create and increase a draught in any chimney that is free from obstructions within, sufficient to carry off all smoke, and keep itself clean, no matter in which position, angle or place it is set. Furthermore, that it will surpass anything heretofore invented for that purpose. I can also recommend it as a perfect Ventilator. For further information and particulars, inquire of

M. SCHOLL, Inventor, 900 Vallejo St., San Francisco.

BYRON JACKSON

MANUFACTURER OF

JACKSON'S ACME STACKER, LOADER & RAKES.

The "Acme" stacks hay, grain or straw, or loads it on wagons, at about one third usual cost. It takes the hay from the swath (or from the cock or windrow) and puts it on the stack without manual labor. It builds high and compact stacks, which turn the rain, and the rapidity with which a crop can be harvested insures its safety. The hay is of a good color and not dry and brittle. Six men and ten horses put up 100 tons a day. With the "Acme" Rake the grain is not shattered out as when taken up with a fork. They have been tried in every kind of hay and grain; are a success in reaped grain. They are the best for unloading header wagons with nets, for which purpose a net attachment is used. They lift the net from the header bed, and, after dumping, spread it back in wagon. Cheapest machine and cheapest to operate. Improved and adapted to this Coast. Every improvement tested and every machine guaranteed.

The Rakes are the best in the world? They carry from 300 to 1300 pounds, and dump the load automatically. Teeth are iron pointed to prevent splitting. The drivers' weight balances the load so it can be carried easily. The Stacker weighs 1700 lbs., costs \$150; the Rakes weigh 650 lbs., cost \$50 each; Net attachment to unload header bed weighs 640 lbs., costs \$50; Nits, \$6 each. Satisfaction guaranteed. If you are interested, write me for circulars, free. I own, for this Coast, the original patents covering this plan of stacking. Beware of infringements. Address

The Three-Year Curriculum is adopted by this College; attendance upon three regular courses—at least one in this institution—being obligatory.

A Matriculating Examination, or other evidence of the possession of a fair education, will be required on entering.

The Regular Course commences on the first Monday in June of each year, and continues until November. It is thus a Summer Course, contrary to general usage.

The Intermediate Course commences early in January of each year, and continues nearly four months. It is a great assistance as a preparatory step to the Regular Course, and as offering the fullest opportunities for the prosecution of dissection. Although attendance upon this course is not obligatory, it is earnestly recommended that all attend it who can possibly do so.

Should any further information be desired, it may be obtained by application, in person or by letter, to

PREFACE.

In presenting this, the Twenty-sixth Volume of LANGLEY'S SAN FRANCISCO DIRECTORY, the publisher desires to again express his obligation to the enterprising portion of our business community, whose advertising patronage has contributed towards this issue. Without such assistance, such a publication as this would be impossible, no subscription list ever obtained having paid the cost of a *complete Directory*.

Material changes have been made in the methods of display and classification, which will, it is thought, commend themselves to our patrons and the public.

New methods and novelties will be added in the future as our experience or the development of Directory publications generally may suggest.

Attention is also called to the increased size of the volume, as an indication of the development of our city.

During the past year our city has been canvassed by various Directory *frauds*, who, by wholesale promises and under high-sounding titles, have sought the patronage which our merchants only intend to give to first-class works. Experience will teach the business community to give these frauds a wide berth in the future.

Very respectfully,

THE PUBLISHER.

DIRECTIONS FOR KEY-HOLDERS.—Upon the discovery of a fire near your signal-box, turn the crank steadily to the right, forty times, then wait a few moments, and if you hear no alarm on the large bells, turn as before. If you still hear no alarm, go to the next box and give the alarm from that. Never open the box or touch the crank except in case of fire. Never signal for a fire seen at a distance. Do not give an alarm for a burning chimney. Be sure your box is locked before leaving it. Upon a second

alarm being struck for the same fire it will be considered a general alarm. Second alarms will be turned in only by order of the Chief Engineer or his Assistants.

Keys of the signal boxes are deposited in the vicinity of each box, at such places as are indicated upon cards placed thereon.

The signal boxes in use consist of ninety-two crank boxes and eighty-four automatic boxes. An alarm from an automatic box is given by pulling down the hook once and letting go, unerring mechanism doing the rest.

Complaints concerning the working of the Fire Alarm Telegraph, irregular striking of the bells and gongs, broken wires, etc., should in all cases be made at the Fire Alarm Office, Brenham Place.

In case of tumult or riot, whereby the services of the Police force are required, an alarm will be given, consisting of ten strokes upon the bells and gongs, repeated five times, which will be a signal for the Police to assemble at the old City Hall. This alarm will be given only by order of the Mayor or Chief of Police.

The telegraph apparatus consists of about one hundred and twenty miles of wire, divided into nineteen circuits, of which twelve are signal circuits, or circuits running to the signal boxes. Alarm gongs are located in the different Engine, Hook and Ladder, and Hose houses, each connected with the Central Office by the fire alarm circuits and eight alarm bells for striking the alarm box, located as follows: One on the Hall of the Exempt Fire Co., one on the Engine House on Sixth street, one on the Engine House on Stockton street, one on the Engine House on Second street, one on the Engine House on California street, one on the Engine House on Sixteenth street, one on the Engine House on Bryant street, and one on the Engine House on Pacific street. The bells and gongs are each struck at the same time by electrical machinery.

PUBLIC SCHOOLS.

The free public schools of San Francisco are the pride of the citizens, and their efficiency attract many families to reside in the city in order that their children may reap the advantages they offer. The first English school was established in April, 1847, with about thirty pupils, taught by a Mr. Marston, who is; therefore, the pioneer teacher of the city. Late in the same year the citizens organized a public school, and erected a building on the southwest corner of the Plaza, now Portsmouth Square. In April, 1849, the Common Council established a public school, and John C. Pelton and wife were employed as teachers, and this was the beginning of the system which has continued to the present time. During the fiscal year ending June 30, 1884, there were 61 schools, employing 714 teachers, and having an enrolled attendance of 41,942 pupils, of whom 22,283 were boys, and 19,659 girls. By the report of the School Census Marshal, June 30, 1884, the number of youth in the city under seventeen years of age is 62,880. The number between five and seventeen who are entitled to draw school money is 63,029, an increase of 4,968 for the year. The number attending private and church schools only, during the year (not including Chinese) was 46,815, an increase during the year of 2,560. The number between five and seventeen years of age (not including Chinese) who have not attended school at any time during the year was 16,169, an increase from the preceding year of 2,363. The last exhibit—of children not attending any school—is worthy of note. The enrollment at the different schools was as follows: High schools—Boys, 526; girls, 850; total, 1,376. Grammar schools, including some Primary grades—Boys, 6,755; girls, 7,357; total, 14,112. Primary schools, including some Grammar grades—Boys, 12,429; girls, 11,103; total, 23,532. Evening schools—Boys, 2,573; girls, 349; total, 2,922. The financial condition of the Department is represented as follows: The city tax for school purposes in the year 1883-84 was .1048 cents on each \$100. The total income, including cash on hand at the beginning of the year was \$774,253 46, a decrease from last year of \$46,791 54. The expenditures were \$797,452 23; increase for the year of \$6,277 24. Cost of instruction per pupil, based on the enrollment, and excluding expenditures for buildings, \$18 70. The amount paid teachers' salaries, \$657,824 43; an increase from the preceding year of \$19,186 90.

EVENING SCHOOLS.—Mr. Joseph O'Connor, Inspector of Evening Schools, reports the number of pupils enrolled during the year at 2,922. Average daily attendance, 1,121; average number belonging to Evening Schools, 1,246. The terms and holidays are the same as those of the day schools. The studies are reading, arithmetic, penmanship and composition or letter-writing, bookkeeping, industrial drawing, mathematics, etc. There are two Spanish classes which receive lessons alternate evenings, from two teachers appointed for that purpose. The total number of classes now in the schools are twenty-eight. The Evening Schools are held at the Lincoln, Mission, Haight and Washington Schools.

SCHOOL HOUSES.—The total number of buildings used by the Department is 68, of which 65 are owned by the city and 3 rented. Of those owned by the Department, 6 are of brick and 62 are of wood. The amount paid for rented rooms was \$4,783.

Colleges and Private Schools.

Notwithstanding the excellence of the free public schools of the city and State, their exemption from direct cost to the pupil or parent, and the great interest taken in them by the public as the nurse and strength of our free institutions, colleges and private schools of great wealth, popularity and importance rise and prosper. That such institutions exist, show the great interest taken in educational matters. The public and private systems are rivals, each stimulating the other, and setting examples of enterprise, management, salaries, edifices, progress and standard of scholarships. There are in San Francisco about one hundred private schools, in which term are included the select school of a few pupils, the seminaries, commercial schools, academies, convent schools, and colleges, with their thousand students. The Census Marshal reported the number of youth attending private and church schools in this city in June, 1884 (not including Chinese) at 7,780. Many of the private schools having edifices of great capacity, cost and grand architectural appearance.

SACRED HEART COLLEGE.—The Sacred Heart College, located on the corner of Eddy and Larkin streets, is a wooden structure of three high stories and basement, and covering a large portion of the block. This is conducted by the "Christian Brothers," under the direction of Brother Cieran. The number of students is 700. The object of this institution is to give a thoroughly Christian and secular education, embracing the classical, scientific and commercial courses.

SACRED HEART PRESENTATION CONVENT.—The Sacred Heart Presentation Convent is a fine brick building of ample proportions, located at the corner of Taylor and Ellis streets. This is a chartered college by act of the Legislature and empowered to confer graduating certificates. The school is free of charge to all denominations. It was opened on the 24th of May, 1869, and the number of pupils increasing, made it necessary to enlarge the building, and in 1870 the portion fronting on Ellis street was added. Later on a wing within the enclosure was built, to afford more ample facilities for the improvement of pupils in music, needlework, painting, drawing, etc. The institution contains 600 pupils, and is under the charge of Mother Mary Ignatius McDermot.

ST. IGNATIUS COLLEGE.—The St. Ignatius College located on the west side of Van Ness avenue, and extending from Hayes to Grove streets, ranks among the oldest and most prominent of the colleges of San Francisco, opening for the reception of students on October 15, 1855. It was incorporated under the law of the State April 30, 1859, and empowered to confer degrees and academical honors. The number of students usually in attendance is upwards of 600, with a staff of 27 professors and teachers. The college edifice consists of two main buildings, connected by spacious corridors. On the corner of Grove and Van Ness avenue, the first two stories are used for class and lecture-rooms, and the two upper floors as an exhibition hall. The college will accommodate twelve hundred students. The church and college combined front two hundred and ninety feet on Hayes street, and runs through to Grove street, a depth of two hundred and seventy-five feet. It is one of the largest and most magnificent edifices the city contains.

ST. MARY'S COLLEGE.—The St. Mary's College located on the east side of Mission street, or County Road, about four miles from the City Hall, is represented as in a flourishing condition. It is one of the oldest colleges on the coast, and has been under the management of the Christian Brothers since 1863. During the last year there were about 250 students in attendance.

The course of study will be extended as rapidly as the students can be prepared for it, and the trustees can provide the means of maintaining a competent Faculty.

SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventu-

ally reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are ninety-three districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office, upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post Office.

It was organized on the seventh of January, 1854, with one hundred and five members, and has rapidly increased, until now it numbers three thousand five hundred and thirty-seven members.

Only Germans and persons speaking German are admitted to membership. The chief purpose of the association is mutual assistance in case of sickness, and when sick every member has a right to demand support and medical attendance from the society. The society has a second purpose of doing charity to Germans not members of the association, and especially to German immigrants newly arrived. For this purpose the society has expended during its existence over \$300,000. The hospital of the society, located

on the block bounded by Fourteenth, Ridley, Noe and Castro streets, is built after the most improved plans of modern hospital architecture, and has accommodations for three hundred patients. It was formally opened February 22, 1878, and replaces the loss of their old hospital on Brannan street, which was burned August 28, 1876.

The office is at 535 California street, where the general agent, Eugene Roemer, can be found from eight o'clock A. M. to five o'clock P. M., on week days. This Order sustains the Good Templars' Home for Orphans, located at Vallejo, California. The buildings, which are capacious, elegant and comfortable, were erected in 1869, by the Good Templars of California and Nevada. The Home was opened for the reception of orphan children, October 1, 1870, and is now occupied by one hundred and thirty children, who are receiving shelter and education beneath its roof. \$45,000 has been expended in its erection, and about \$200,000 in support of its inmates. It is in a complete and exact sense a public charity, openly inviting the homeless from all portions of the States of California and Nevada, to share in its beneficences. It derives its name from the fact of its erection by the Good Templars and its support by that Order. It is also under the control of the Grand Lodge of the Order, but its title is not meant to convey any idea of exclusiveness as to the class admitted to its sheltering offices. To be a homeless orphan is the only passport required at its portals. In connection with this society, and sustained by them, are Bands of Hope, composed of children under twelve years of age, who are supplied with rituals and badges free. These organizations now number in the State about fourteen thousand children.

On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this Order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clementina, Ecker, Jessie, Minna, Natoma, Ritch, Shipley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Forty-ninth avenues, and those running east and west, from First avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hoadley's Addition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission Dolores; Western Addition, west of Larkin; San Miguel Ranch, southwest and near the Mission Dolores; Bernal Heights (B. H.), south of Twenty-sixth Street, between San Bruno and San José Roads; and University Mound Tract (U. M. T.), west of San Bruno Road, five miles from the City Hall. See, also, Prominent Places, end Street Directory.

(b) Street not opened. (c) Fractional blocks, one hundred numbers allowed for first two blocks. (d) Fronting the bay. (e) Street ends. (—) Street does not cross. B. H., Bernal Heights. U. M. T., University Mound Tract. S. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.

HORSE CARS.

CORNER OF SEVENTH AND WASHINGTON STS., OAKLAND.

These cars are open, and the seats elegantly upholstered. The Route, winding through lovely scenery, gradually ascends the high lands overlooking the city and bay, and the landscapes are conceded by tourists to be among the finest in the world. With the balmy air, sharpened just enough by the ocean breezes, the body feels exhilarated to an extent unknown in any of the suburban three-mile rides of San Francisco. Cars run regularly week days and Sundays.
